

## THE AFTERLIFE OF CHARLOTTE BROWNING

*Charlotte Browning is not dead, but she is no longer living in the nineteenth century. Her greatest adventure takes place after her death.*

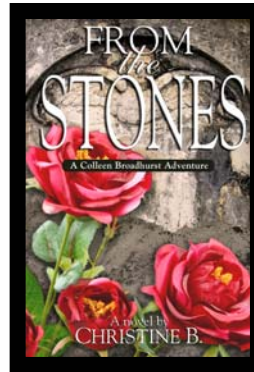

What happens to us when we die? Is there eternal darkness, or does our energy live on within a different dimension? Do we truly have only one life to live, or does it take us many lives to get it right? Is the power of love more potent than evil?

**The Afterlife of Charlotte Browning** offers answers to these queries. Charlotte narrates her experiences as she journeys Home, the place she returns to between lives. After reviewing her life in New England in the 1800s, Charlotte realizes she must resolve an issue before she can advance to her next life. She decides to return to the earth plane in order to assist the tortured soul of her cousin, Helen Pomroy. Charlotte's goal becomes more than she anticipates when she ventures back to Pinewood, Helen's former home, and encounters the evil spirit of Helen's former husband, Justin Pomroy. In the process of protecting the family who moves into the home Charlotte learns a valuable lesson regarding the power of love.

## FROM THE STONES

*Colleen Broadhurst thought she lived an ordinary life, until she touched her husband's tombstone and learned that everything she knew about her married life had been a lie.* In the process, however, she discovered that she possesses a psychic talent that would eventually transform her normal existence and propel her life toward a new and exciting direction.

Colleen realizes that she has the ability to link with people buried under the tombstones she touches. Haunted by the spirit of a murdered wife, Rose Kelly, Colleen touches Rose's headstone and relives her violent murder by her husband's hand. With the use of Colleen's newly discovered psychic talent and her intuitive nature, Colleen and her friend, Lisa, work to bring Rose's killer to justice.

**FROM THE STONES** is the first in a series of novels depicting Colleen Broadhurst's adventures as a psychic private investigator.

## THE GOLDEN GRILL

A Colleen Broadhurst Novel

By Christine B.

While in San Francisco finishing up a case Colleen agrees to assist a desperate widow. Colleen finds her psychic talents to be a mixed blessing for the woman as the detective attempts to untangle a web of deception that could cost the widow her life.

## THE COMING

*Jeffrey Angel is a farmer in a rural city in Ohio who has no idea how important he will become to the survival of the Human Race.*

Jeff thinks he doesn't remember anything that happened to him when he was a child and went missing for three days. Nor does he understand why the sound of helicopters invokes such fear. Eventually, all will become clear to him—and to the other twenty-five people who have touched his life and have had the same experiences.

Few Earthlings would have dreamed that their entire history and unpredictable future would be so deviant from what they had been taught. Life as we know it is about to change forever; and a rural farmer from Ohio will be the catalyst for that change.

*Will be available in October 2008.*
