

INVESTIGATION REPORT

DATE OF INVESTIGATION:	<u>11/21/2009</u>	ADDRESS:	<u>811 West Liberty St. Medina, OH 44256</u>
NAME OF LOCATION:	<u>CORKSCREW SALOON</u>		
CONTACT:	<u>Ryan Marino</u>	PHONE #	<u>330-725-0220</u>
CONTACT EMAIL:	<u>Rmarino127@zoominternet.net</u>		
CONTACT ADDRESS:	<u>Same</u>		
Time of day for investigation:	<u>9:15 am.</u>		
Weather Conditions:	<u>60 depress-cloudy</u>		
DATE OF INITIAL CONTACT:	<u>11/4/2009</u>	WHO?	<u>Christine left Bus. Card w/owner</u>
INVESTIGATOR(S) PRESENT:	<u>Christine B., Bob W., Debbie H., Darlene and Leanne S. and Donna G.</u>		
EQUIPMENT READINGS			
<i>Investigators on site left cell phones in the car except for LeAnn-she turned her phone off.</i>			
ELECTROMAGNETIC (EMF) READINGS			
EMF Base:	<u>2.0</u>	Taken:	<u>All over the building—High tension wires in back of building might be reason for higher than normal EMF base readings.</u>
EMF Reading:	<u>3.0/yellow</u>	Taken:	<u>Near front entrance, inside building</u>
EMF Reading:	<u>3.0/yellow 5.0-near floor</u>	Taken:	<u>Near door to the front dining room in bar area only-not on other side of door.</u>
EMF Reading:	<u>3.0/yellow</u>	Taken:	<u>Basement near Swingsville wine rack</u>
EMF Reading:	<u>3.0/yellow</u>	Taken:	<u>In front dining room at the entrance to the left of the fireplace</u>
TEMPERATURE READINGS			
IR Temp Rding:	<u>67-71</u>	Taken:	<u>No significant temperature spikes or drops throughout the building.</u>

SENSITIVE IMPRESSIONS		
Sensitive:	Christine B.	Strong spirit presence in first room to the left on second floor, top of the stairs and in the basement wine storage room.
Sensitive:	Darlene/Leanne	Darlene saw a dark shadow move in the basement wine storage room while she and Leanne were near the stairs. Communication with spirit of “Edna”

CHECKLIST OF OCCURANCES WHILE AT LOCATION
--

<input checked="" type="checkbox"/>	ORBS*	Where?	Attic, 2 nd floor dining room-(beige),
<input type="checkbox"/>	VORTEX	Where?	No indication of a vortex was found
<input type="checkbox"/>	ECTOPLASM	Where?	
<input checked="" type="checkbox"/>	APPARITION	Where:	Possible—not conclusive -- see Debbie’s photograph-Pg 5
<input type="checkbox"/>	Of What/Whom?:		
<input type="checkbox"/>	COLD SPOT	Where?	
<input type="checkbox"/>	ODORS	Where?	
<input type="checkbox"/>	Of What/Whom?:		
<input type="checkbox"/>	Batteries losing Charge	Where?	
<input type="checkbox"/>	Seeing something out of the corner or your eye.	Where?	
<input type="checkbox"/>	Of What/Whom?:		
<input type="checkbox"/>	Feeling of being watched.	Where?	
<input checked="" type="checkbox"/>	Atmospheric changes	Where?	2 nd floor dining room-(beige)-Top of Stairs on second floor- Basement near wine racks.
<input type="checkbox"/>	Equipment Failure	Explain:	
<input type="checkbox"/>	Levitating Objects	What:	Where?
<input type="checkbox"/>	Animals reacting Strangely:	Where?	
<input checked="" type="checkbox"/>	Other – Explain	Dowsing Rod communication in back left dining room & dining room with roll top desk. See comments below.	

Electronic Voice Phenomena (EVPs)*

Start	End	Saved As:	Unexplained Comment
52.48:0	52.52:0	52-48-0-I_Was	Christine asked if there was anyone there who wanted to communicate and an unknown voice answered what sounds like, “I was.” There was also an unidentified noise after that comment. Recording occurred in the attic.

*Please see explanation of Investigative terms on Page 3.

Personal Experience

Employee:

1. We were told by the bartender that the owner of the restaurant experienced the feeling like someone ran their fingers through his hair while he was in the basement. (This is not a first hand report.)
2. On 11/13/2009 a tray rolled down the staircase on its edge from the second floor...The tray would have had to make a u-turn in order for it to be propelled naturally, which is not likely.
3. The spirit of a white cat has been seen in the building.

Investigator:

1. Strong sensitive indication of spirit presence in the back dining room to the left of the bar area and in the dining room on the second floor on the left (beige room).
2. High EMF reading spike at mid height on large door to the front dining room from bar area. No electrically wire presence was possible at this location.
3. Also in front dining room, high EMF spike just inside the room to the left of the fireplace. Readings were taken at floor level gave an even higher reading. However, readings taken in the basement directly below did not spike, which would indicate that the spike did not come from electrical wiring in the floor.
4. Many orbs captured in photographs in the 2nd floor dining room (beige). Also, all three sensitives indicated that there was a spirit presence. Moderate spike in EMF/Gauss meter midway on right side of door frame. There was a light switch within a foot of this reading, however.
5. Dowsing Rod communication by Darlene and Leanne in the 1st floor back dining room. Spirit indicated that she was a woman and that her first name started with an "E"
6. The most active room for Leanne and Darlene (sensitives) was the maroon room which was the first room on the right upstairs with the roll top desk. It was really strong right by the desk. (See photo of orb near desk.) Leanne got the name "Edna." We took several pictures and ended up with four different orbs.
7. While in the basement Darlene and Leanne also felt a presence in the wine room. While they were sitting on the steps Darlene saw a shadow move in the wine room. They also got high EMF readings in the same corner (in front of the Swingsville rack) as Debbie did when she was down the basement.

Investigation Terms:

Electromagnetic Field Energy (EMF): *It is believed that a spike in an EMF meter indicates the presence of paranormal activity if other evidence supports it, i.e.: photos with orbs in the same area, sensitive affirmation, and/or other meter readings that support activity.*

Orbs: *Orbs are white and sometimes blue circles or elongated circles that show up on digital photographs. There is much contention in the paranormal field as to their origin. Some investigators claim that they are all dust particles or light glare into the camera lens and aperture. However, a true spirit orb has an irregular edge that usually has a rainbow-colored energy look to it. It also has definite nucleus inside the orb, is transparent, and gives an indication of movement. If the orb shows signs that it is moving, it is almost always an indication of spirit activity, as most cameras sinc their flashes at 1/60 of a second, and dust does not move that quickly unless it is in an outside wind. Also, light refraction back into the lens of the camera does not move at all.*

Electronic Voice Phenomena (EVP): *This term is used to identify unexplained noise or voices that can be heard on electronic recording devices that were (most often) not heard by the investigators during an investigation. It is believed that spirits can imprint their "voices" onto recording devices and sometimes even cell phones, radios and TVs through what is known as static or "white noise."*

PHOTOGRAPHS OF LOCATION

The photos on this page were taken by lead investigator, Christine B. Although there were several more orbs that showed up in her photographs, these were the most significant.

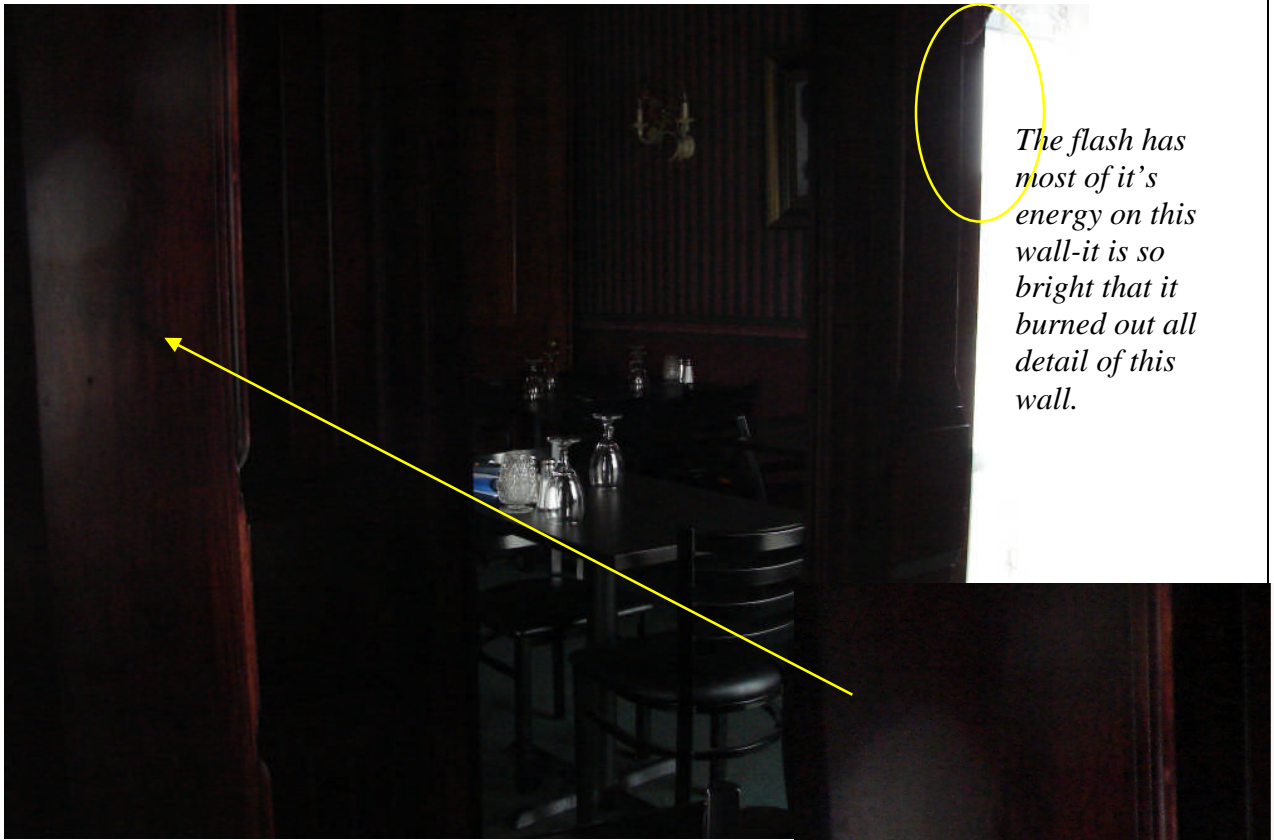

The photo at the left was taken on the main staircase from the first floor.

The both photos below were taken in the attic.

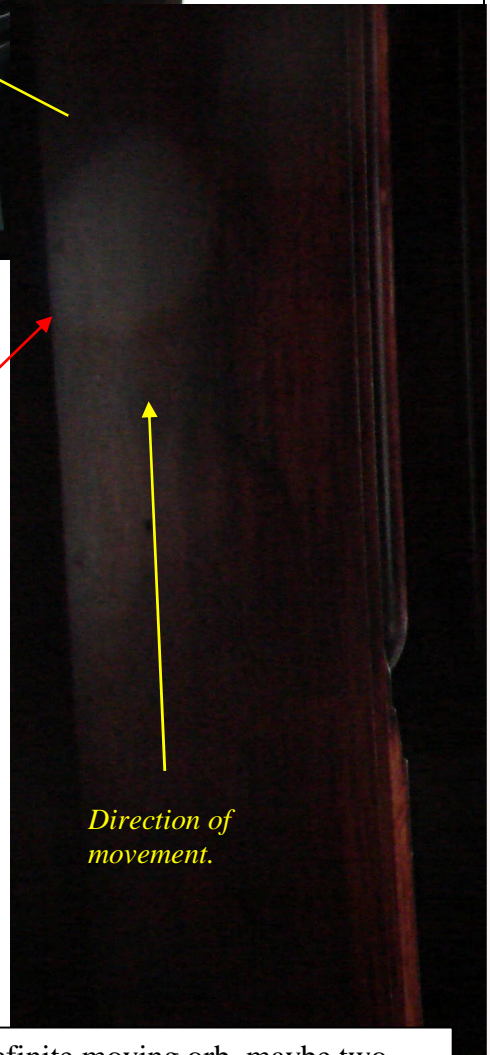

Investigator, Debbie H. took the photo on this page. The red circled area is flash reflection, but the close up shows activity in the next room which we do not believe is flash related, as it is coming from behind the wall. The white specks could be light bouncing off the crystal candle holder but the unidentified milky mist is not a reflection as it appears to be moving. In the second close up, which enlarges the lower left hand corner of the first close up I have circled in yellow the movement that goes off in different directions. This is not how light reflects off of any surface.

The flash has most of it's energy on this wall-it is so bright that it burned out all detail of this wall.

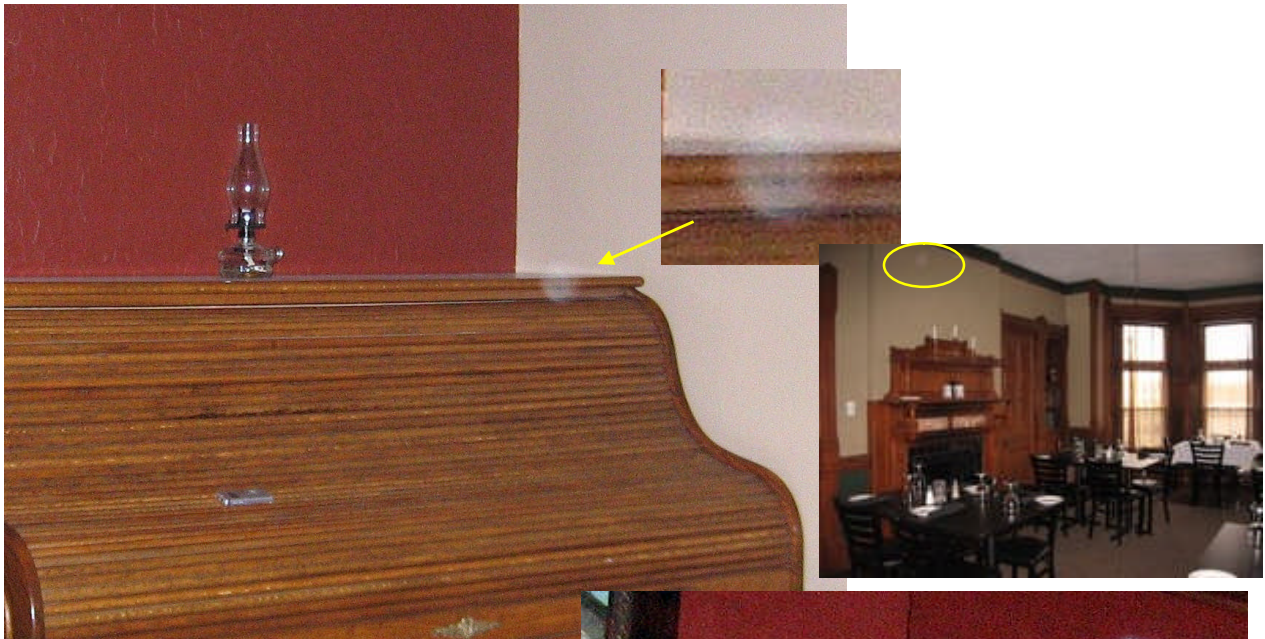

This photo was enhanced for easier viewing.

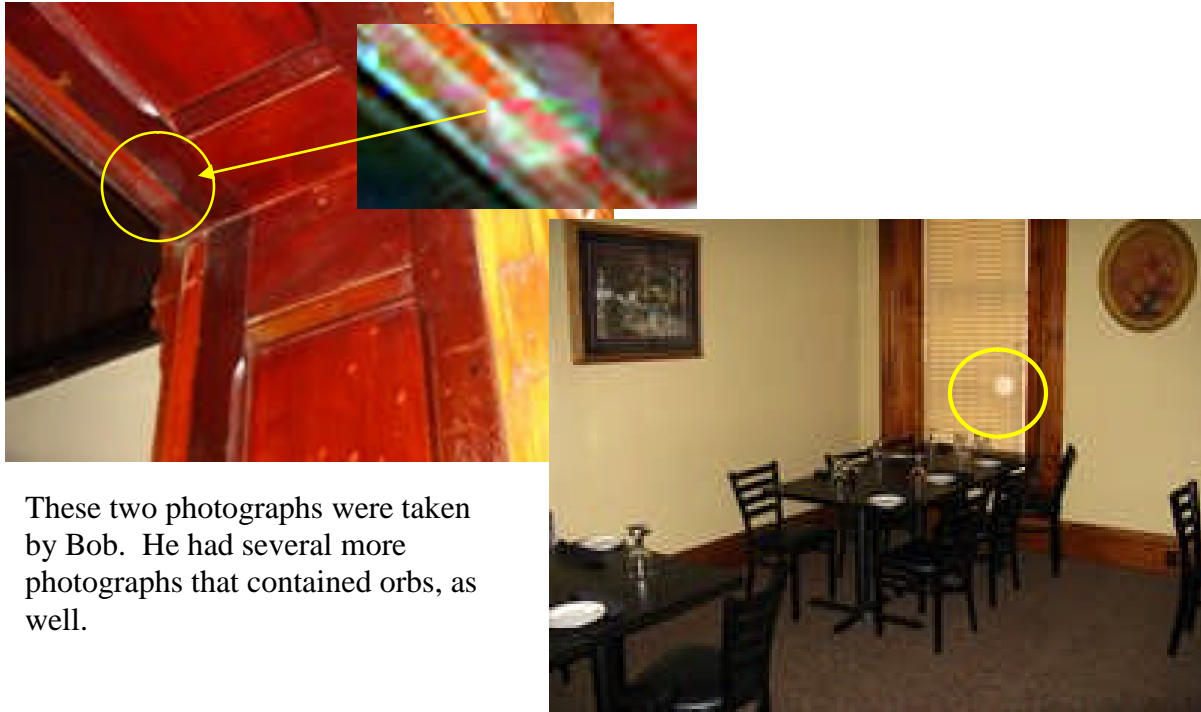

Direction of movement.

This photograph was also taken by Debbie H. There is a definite moving orb, maybe two, on the left of the photograph. Debbie's camera was pointed more toward the right hand side of this room, as indicated by the brightness of the wall on the right. And the light areas on the left of the photograph have a definite shape, which is not the case when light reflects off of wood. The brighter of the two orbs, the one on the bottom, looks as though it is moving from the bottom of the room up the woodwork as Debbie was taking this photo.

These two photographs were taken by Darlene and Leanne S. Both are sensitives and felt a strong spirit presence in both of these areas.

These two photographs were taken by Bob. He had several more photographs that contained orbs, as well.

LOCATION:	Corkscrew Saloon	Page 8
INVESTIGATOR'S SUMMARY OF EVENTS:		
<p>Conclusion: Spirit Activity present throughout the building, but no negative energy was detected. Hot zones in the building are: Basement-Wine room; Bar near large door to the dining room; second floor landing; Dining room with roll top desk; attic; and beige dining room on second floor.</p>		
History of the Building		
No history of this building could be found other than the fact that it is 150 years old.		

On behalf of the El Dorado Paranormal Investigation team, I would like to thank the owners and employees of the Corkscrew Saloon for allowing us to investigate and for being so helpful and accommodating while we were there.

Christine B.
